

# ADAPTED CYCLING BRIDGE II SPORTS

Bridge II Sports has a fleet of handcycles, recumbent bikes and tandems that create the opportunity for athletes with all types of physical disabilities, including visual impairments, to experience the freedom of cycling.

Thanks to a dedicated crew of volunteers, the Bridge II Sports Adapted Cycling program is growing exponentially. Trained sighted pilots pedal in tandem with athletes with visual impairments. Others ride alongside on handcycles and recumbents.

From March to October, BISS utilizes the beautiful American Tobacco Trail in Durham and Green Hills County Park in Raleigh for their popular 'Cycling Saturdays'. The cycling trailer gets noticed all over our Triangle highways bringing gear to programs.

"I CAN FEEL THE AIR IN MY FACE,  
HEAR THE BIRDS AND  
PEOPLE AS WE RIDE BY.  
THERE IS AN ENERGY  
TO BEING OUTSIDE.  
MAKES ME FEEL ALIVE."

Adapted cycling equipment is expensive with handcycles *beginning* at \$2,500 and requiring regular maintenance to keep them safe and functioning.

Bridge II Sports provides all equipment for sessions and also loans/rents equipment for athletes who find their passion for cycling and want to ride more often. Athletes that participate in 5 cycling sessions receive an official BISS Adapted Cycling team jersey. Contact our Programs Team to get involved: [programs@bridge2sports.org](mailto:programs@bridge2sports.org) or 866-880-2742
